Newborn Insurance Reminder

Congratulations on the wonderful new addition to your family!

New parents may forget during the busy, crazy, wonderful days that follow the birth of a child, that babies are not automatically covered on all insurance plans.

Many insurance companies will only cover your newborn after the baby's first 30 days if you contact your insurance and/or employer directly to enroll the baby. If you miss the deadline to enroll your newborn it may be extremely difficult to enroll your baby under your plan until your insurance plan's next annual enrollment period.

Making Sure Your Baby is Covered

We recommend that you check with your HR department or member services to see how your individual health plan works and to begin the process of adding your baby to the insurance.

We are committed to keeping your baby healthy. Unfortunately, if we cannot verify your baby's insurance eligibility, we will ask you to reschedule all appointments until the verification process is approved, or you will be responsible to pay out of pocket for the visit.

If your plan requires that you select a Primary Care Doctor, please be sure to specify one of our doctors at Beach Pediatrics listed as the PCP. Please call us if you have any questions or need help.

Thanks so much,

The Beach Pediatrics Team
